

# Palm Oil

Network Switzerland

## Vision and Mission

The vision

The network's vision is a sustainable palm oil industry in line with the United Nations Sustainable Development Goals (UN SDGs). The focus is on:

- Deforestation-free palm oil supply chains
- Climate- and bio-diversity-friendly cultivation of palm oil
- the promotion of small farmers
- compliance with human rights and the improvement of living and labour standards

### SUSTAINABLE DEVELOPMENT GOALS

The mission

#### Sustainability standards\*

**Certified sustainable and traceable palm oil supply chains**

- Continuous conversion of supply chains & improvement of traceability
- Annual monitoring and reporting of quantities

**Improving sustainability standards**

- Involvement in the (further) development of standards such as the RSPO
- Publication of proposals, statements, etc.

**Additional criteria & supplier dialogue**

- Compliance with additional criteria & conducting supplier dialogues where standards can be improved

**Engagement in countries of origin**

- Development and implementation of own projects, as well as identification and promotion of improvement projects on site

**Dialogue & Networking**

- Networking with NGOs, national and international authorities
- Exchange with other sectors (e.g. tropical oils, non-food, etc.)
